Ride Matching is Easier than Ever
Online-matching software "EzRide" now smart phone compatible

YORK, Pa. (August 16, 2011) – Commuter Services of Pennsylvania is pleased to announce their ride matching software, called "EzRide", is now available on smart phones. Without the need to download an application, commuters are able to enter information right on the Commuter Services of PA website; the software then provides other individuals from the database that have similar commuting patterns. From there a call or email to the newly matched commuter is easy with just one click of a button.

Commuters Services of Pennsylvania offers resources and assistance in helping commuters find alternative transportation options to get to work. By providing a ride matching resource convenient for any smart phone user, it's easier than ever to get connecting with a car or vanpool. "We are really excited to be able to offer this feature to smart phone users," said Brandy Heilman, Executive Director of Commuter Services of Pennsylvania. "We understand the importance of keeping up with technology and are always looking for better ways to improve our services and make commuting options even easier."

Whether it's setting up a carpool or vanpool, or finding other alternative ways to commute, Commuter Services of Pennsylvania provides a range of solutions. Interested commuters can learn more at www.PaCommuterServices.org or by calling the toll free number 1-866-579-RIDE.

About Commuter Services
1-866-579-RIDE, www.PaCommuterServices.org
