Fourteen years ago the metropolitan planning organizations, transit agencies and chambers of commerce from our region pooled their resources to create the SRTP as a non-profit organization spearheading a mission to decrease traffic congestion and improve air quality. In partnership with the Pennsylvania Department of Transportation and with the guidance of the Federal Highway Administration great progress has been accomplished in educating regional commuters about the options to single occupancy vehicles. Taking a bus; forming a carpool or vanpool; walking, biking and teleworking have laid the foundation for commuters to enjoy a healthier lifestyle with less stress, while improving their financial outlook and becoming more productive employees. It has been my pleasure to serve as the Chair of this organization for the past four years and I look forward to the sustained achievements of this outstanding program well into the future.

**OUR MISSION STATEMENT**

The Susquehanna Regional Transportation Partnership (SRTP) /Commuter Services of Pennsylvania promotes commuting options that reduce congestion, conserve natural resources and improve safety and mobility at a regional level by educating and implementing innovative Transportation Demand Management (TDM) programs.

**LEADERSHIP**

**THERESA GIURINTANO, Chair**

**MATTHEW BOYER, Executive Director**

Commuter Services of Pennsylvania, a program of the Susquehanna Regional Transportation Partnership (SRTP) delivers education and outreach resources detailing the non-drive alone transportation options for getting to and from work to more than 1.3 million commuters across 13 counties of Pennsylvania. This professional Transportation Demand Management team engages with more than 450 employer and community entities to provide cost effective green commuting opportunities to employees and commuters.

In 2018 we launched the Commute PA rideshare and rewards program that can be accessed by computer or smartphone app. The program allows commuters to easily track their green commutes and select from more than 2,000 reward offers. A sampling of this important data is highlighted on the following pages!
A STRONGER NETWORK

Best Workplaces for Commuters (BWC) is an innovative program providing qualified employers national recognition and an elite designation for implementing transportation demand management programs. By offering outstanding commuter benefits and meeting a National Standard of Excellence employers become eligible to join this exclusive group. Congratulations to our 2018 Best Workplaces for Commuters employers!
